RE: Business Opportunity Rule, R511993

Dear Sir or Madam:

I am writing this letter because I am concerned about the proposed Business Opportunity Rule R511993. I believe that in its present form, could prevent me from continuing with Mannatech products as an Independent All Star Associate and Regional Director. I have only been selling the products for short time and have found it to be the most rewarding venture I have experienced for many years. You see I am 75 years old and find it wonderful to be able to share these products with people who have not been able to experience healing from any other source. You don't realize the importance of this discovery for the human race. It can accomplish more in one year than some pharmaceuticals can do in 60 years from the words of a doctor. It makes me suspicious of who is behind this. They know the possible threat these products are doing to the pharmaceuticals field. It is not fair to tie our hands so we cannot carry on our business. It is not fair to keep these products from the many sick people who have not been able to receive products that will return their six sugar cells back to functioning properly so they can heal their bodies. This is one of the best things that has happened in the last hundred years and someone is very afraid of it's success and possible loss of money for pharmaceuticals. So find out who is putting you up to this trouble making scheme? First, you should try these products, then you would be glad to promote them for the sake of a healthy society and not become a stumbling block to us who care so much and want to move forward with the new discoveries that everyone needs so desperately. You are taking away the freedoms we built the country on, the freedom to succeed on our own in America without a grant or a loan from the government, a way to earn and be your own boss and prosper in the United States of America. Some of the sections in the proposed rule will make it very difficult if not impossible for me to sell Mannatech products. Shame on you, can't you find something better to do with your time? Would you dare to put these rules on retail sales? If you don't do it to them, then don't do it to us!

Sincerely,
